

Gurprince Singh

Full Stack Developer

Mohali, Punjab, India | +91 78883 62208 | gurprince151@gmail.com | gurprincesingh.vercel.app | github.com/Gurprince | linkedin.com/in/gurprince-singh-b572b9221

SUMMARY

Full stack developer working across React, NestJS and PHP, with hands-on Azure and Power Platform automation and AI integration (vector search, MCP servers). Rebuilt a client reporting feature from **24 hours to under 7 seconds**, automated enterprise document workflows end to end, and hold a **granted patent** for an IoT display system. B.Tech in Computer Science (2026).

EXPERIENCE

Full Stack Developer, CFZ Technologies

Mohali | Jul 2026 – Present

- Build end-to-end features across the frontend and backend of a high-traffic web application.
- Design and implement complex calculation and business-logic modules for accurate, real-time data processing.
- Develop responsive user interfaces for new product features.

Software Developer Intern, Penthara Technologies

Mohali | Oct 2025 – Jun 2026

- Rebuilt a client reporting feature in React and PHP, cutting report generation from **24 hours to 3–7 seconds** (~99.99% faster) for client Healthicity.
- Designed and deployed Azure Logic Apps and Power Automate flows that **eliminated manual document uploads** for client Standish, filing SharePoint files into Azure Blob Storage in a client-named folder structure.
- Built **Voyager** (voyager.penthara.com), a multi-tenant workforce platform in React and NestJS: workspaces, projects with tasks and subtasks, timesheets, leave, employee capacity tracking, and RAG and risk reports, with Teams integration and automated emails.
- Added AI features to Voyager: semantic search on a vector database and custom MCP (Model Context Protocol) servers.
- Delivered Power Apps on SharePoint, email-attachment automation flows, a client WordPress site, and new features on a React + PHP client platform.

Junior Software Intern, Logicsoft International

Gurgaon | Jun 2025 – Jul 2025

- Built a company AI chatbot platform and designed its UX and landing page to improve user onboarding.

Software Developer Intern, Speedum Technology

Punjab | Jan 2024 – Sep 2024

- Developed and debugged web applications in HTML, CSS, JavaScript and React.js.

PROJECTS

SkillMentor, AI learning roadmap platform | GitHub

React, Node.js, MongoDB, AI

- Generates a personalised roadmap for a target role (e.g. Frontend, DevOps) with curated resources, tasks and milestones.
- AI evaluates completed tasks, gives feedback and adapts the learning path to each user's progress.

DevDeck, developer productivity workspace | GitHub

MongoDB, Express, React, Node.js

- Combines a Kanban board, searchable snippet library, versioned docs, custom dashboards and real-time notifications in one app, replacing five separate tools.
- Implemented role-based access control with Owner, Editor and Viewer permission tiers.

SkillSync, AI task recommendations | GitHub

React, Node.js, MongoDB

- Recommendation engine that suggests tasks based on each user's skills, improving task completion engagement.

Smart Notice Board, IoT display system (granted patent)

Raspberry Pi, web

- Designed a two-site system: a sender portal for notices and a Raspberry Pi-hosted receiver that displays them in real time.

Freelance client websites

React, Node.js, Firebase

- **Indy Truck & Trailer Repair** (indytruckrepair.us): business website for service discovery and customer inquiries.
- **LensFillers** (lensfillers.ca): portfolio site for a photographer and filmmaker, with album showcase and inquiry flow.

TECHNICAL SKILLS

Frontend: React.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, SCSS

Backend: Node.js, Express.js, NestJS, PHP, REST APIs, MCP server development

Data: MongoDB, MySQL, Firebase, vector databases (semantic search)

Microsoft & Azure: Azure Logic Apps, Azure Functions, Blob Storage, Power Apps, Power Automate, SharePoint, SPFx, Teams

Other: Python, C++, WordPress, Git, GitHub

EDUCATION

B.Tech, Computer Science & Engineering, GNA University

Phagwara | 2022 – 2026

Coursework: Full Stack Development, Data Structures & Algorithms, Web Technologies.

Senior Secondary (CBSE), Akal Academy Tibber, 86%, 2nd rank in school

Punjab | 2022

ACHIEVEMENTS & LEADERSHIP

- Ran a 2-day React.js workshop for **180+ participants** covering components, state management and hooks.
- 2nd place, inter-college Web Design Competition. Built an AI tutor suite in 28 hours with a 5-person team at GNA Hackathon.
- Coordinator for Coding Mania and several gaming events.
