

GURPRINCE SINGH

Full Stack Developer

+91 7888362208 • gurprince151@gmail.com • github.com/Gurprince • linkedin.com/in/gurprince-singh-b572b9221

PROFESSIONAL SUMMARY

Results-driven Full Stack Developer and B.Tech graduate with a granted patent and proven client-facing delivery experience. Reduced a client's report generation time from 24 hours to under 7 seconds (~99.99% improvement) and fully automated document workflows for enterprise clients using Azure Logic Apps and Power Automate. Experienced across React.js, NestJS, PHP, Power Platform, Azure, and AI integrations including vector databases and MCP servers. Strong communicator with leadership experience training 180+ developers.

WORK EXPERIENCE

Full Stack Developer | CFZ Technologies | Mohali, Punjab

Jul 2026 – Present

- Working as a Full Stack Developer building end-to-end features across the frontend and backend of a high-traffic web application.
- Designed and implemented complex calculation and business-logic modules to power accurate, real-time data processing within the platform.
- Built responsive, user-facing frontend interfaces to support new product features and improve overall user experience.

Software Developer Intern | Penthara Technologies | Mohali, Punjab

Oct 2025 – Jun 2026

- Engineered a reporting feature in React + PHP that cut data report generation time from 24 hours to 3–7 seconds — a ~99.99% performance improvement — directly accelerating business decision-making for client Healthicity.
- Designed and deployed Azure Logic App and Power Automate flows that fully eliminated manual document uploads to Azure Blob Storage and automated SharePoint file ingestion into Blob in a structured, client-named folder format — reducing operational overhead to zero for client Standish.
- Built a complete internal employee management application using React.js and NestJS with multi-tenant architecture, MS Teams integration, and automated email workflows, streamlining company-wide HR and team operations.
- Integrated AI capabilities into the NestJS application using a vector database for semantic search and built custom MCP (Model Context Protocol) servers to power intelligent, context-aware AI features.
- Developed Power Apps solutions integrated with SharePoint; created Power Automate flows for automated email-attachment handling and structured Blob Storage pipelines.
- Built and deployed a client website using WordPress and extended another client platform with new features in a React + PHP stack.

Junior Software Intern | Logicsoft International Pvt. Ltd. | Gurgaon

Jun 2025 – Jul 2025

- Built a company-level AI chatbot platform and designed the UX and landing page, improving user onboarding and engagement.

Software Developer Intern | Speedum Technology | Punjab

Jan 2024 – Sep 2024

- Assisted in development and debugging of web applications using HTML, CSS, JavaScript, and React.js; completed intensive training in modern component-based architecture and ES6+ fundamentals.

PATENT

Smart Notice Board — IoT Display System (Granted)

- Engineered a dual-website IoT system: a sender portal for data input and a Raspberry Pi-hosted receiver site for real-time display output.

FULL-STACK PROJECTS

SkillMentor — AI-Powered Developer Roadmap Platform

- Built an AI-driven learning platform where users select a target role (e.g. Frontend Developer, DevOps Engineer) and receive a fully personalized roadmap with curated resources, structured tasks, and milestone-based progression.
- Implemented AI evaluation features that assess task completions, provide feedback, and adapt the learning path dynamically based on user performance and progress.
- Features include role-based roadmap generation, resource linking, task tracking, AI-powered assessments, and progress analytics to guide developers from beginner to job-ready.
- Tech stack: React.js, Node.js, MongoDB, REST APIs, AI Integration.

DevDeck — Unified Developer Productivity Platform

- Built a comprehensive developer productivity platform that consolidates project management, collaboration, and resource organization into a single web application — eliminating context-switching across five or more disconnected tools.
- Integrated a Kanban-style task board, searchable code snippet repository, rich-text documentation module with version history, customizable dashboards, and a real-time notification engine into one cohesive interface.
- Implemented Role-Based Access Control (RBAC) across three permission tiers (Owner, Editor, Viewer) ensuring secure collaboration and data integrity across teams.
- Tech stack: MERN (MongoDB, Express.js, React.js, Node.js).

SkillSync — AI-Powered Task Recommendation Platform

- Built an AI-driven productivity platform using React.js and Node.js that delivers personalized, skill-based task suggestions; implemented recommendation engine that improved user task completion engagement.
- Tech stack: React.js, Node.js, MongoDB, REST APIs.

FREELANCE PROJECTS

Indy Truck & Trail Repair — indytruckrepair.us

- Designed and developed a professional business website for a truck and trail repair service, enabling seamless service discovery, customer inquiry, and a strong online presence for the client.
- Tech stack: React.js, Node.js, Firebase.

LensFillers — Photographer Portfolio — lensfillers.ca

- Designed and deployed a full-stack portfolio website for a professional photographer and filmmaker, streamlining album showcasing and client inquiry flow.
- Tech stack: React.js, Node.js, Firebase.

TECHNICAL SKILLS

Frontend: React.js, HTML5, CSS3, JavaScript (ES6+), TypeScript, Tailwind CSS, SCSS

Backend: Node.js, Express.js, NestJS, PHP, LAMP Stack, MCP Server Development

Databases: MongoDB, MySQL, Firebase, Vector Database (Semantic Search / AI)

Cloud & Microsoft: Azure Logic Apps, Azure Function Apps, Power Apps, Power Automate, SharePoint, SPFx, MS Teams Integration

Languages: Python, C++

CMS & Tools: WordPress, Git / GitHub

EDUCATION

B.Tech — Computer Science & Engineering | GNA University | Phagwara, Punjab

Aug 2022 – May 2026

Relevant coursework: Full Stack Development, Data Structures & Algorithms, Web Technologies.

Senior Secondary (CBSE) | Akal Academy Tibber | Punjab

Apr 2021 – Mar 2022

Scored 86% — 2nd rank in school.

ACHIEVEMENTS & LEADERSHIP

- Secured 2nd place in an inter-college Web Design Competition.
- Conducted a 2-day workshop on Web Development with React.js for 180+ participants, covering components, state management, and React Hooks.
- Built an AI-Powered Tutor Suite in 28 hours as part of a 5-member team at GNA Hackathon.
- Organized and coordinated multiple gaming events; served as coordinator for the Coding Mania event.

CERTIFICATIONS

- Software Intern Certificate — Speedum Technologies
- 2nd Position Certificate — Web Design Competition
- GNA Hackathon Participation Certificate
